More than a delicious coffee !

The Concept of Maxeria Maximum, we offer different coffee options during your holiday. Besides that, how about experiencing Schiller coffee beans while starting a day or enjoying an evening with the unique Aegean view? Our coffee beans with various flavours are not presented as instant granulated coffee, by both grinding fresh coffee beans in a special machine and using a special brewing method in a Professional coffee maker.

We invite you to take your coffee pleasure to the next level with our Maximum concept.
